Honors

Graduating with departmental honors and graduating with university honors are two opportunities available to high-achieving undergraduate students, each with specific and distinct requirements. Some students pursue both options while others pursue one or the other. Membership in the University of Iowa Honors Program is encouraged, though not required, to earn honors in the major.

Honors in the Major

Within the College of Liberal Arts and Sciences, each major develops its own requirements to achieve honors in the major. To graduate with honors in environmental policy and planning, departmental honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all work for the major. They must be admitted to the department's honors program by the first semester of their senior year or earlier.

Honors students pursue study beyond the typical undergraduate level. They work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Students earn credit for the thesis by registering for ANTH:4995 Honors Research Seminar, GEOG:4995 Honors Thesis or POLI:4601 Honors Senior Thesis; or HIST:3995 History Honors Research Seminar and HIST:3996 Honors Thesis.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental policy and planning major.
