Environmental Sciences, B.A.

Combined Programs

B.A./M.A.T. (Science Education Subprogram)

B.A. students who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the combined program enables students to earn a B.A. and M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 19 s.h. of qualifying credit toward both degrees. For more information, see “B.A./M.A.T.” under Science Education in the Master of Arts in Teaching (College of Education) section of the Catalog. Interested students should consult an advisor.

B.A./M.S. in Urban and Regional Planning

The combined B.A. in environmental policy and planning/M.S. in urban and regional planning enables undergraduate students majoring in environmental policy and planning to begin work toward the M.S. while completing the bachelor's degree. Students admitted to the program may count 18 s.h. of credit toward both the B.A. and M.S. degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see the M.S. in urban and regional planning in the Catalog.
