Health and Human Physiology

Chair
- Gary L. Pierce (Health and Human Physiology/Internal Medicine)

Undergraduate majors: health and human physiology (B.A.); human physiology (B.S.); sport and recreation management (B.S.); therapeutic recreation (B.S.)
Undergraduate minors: human physiology; lifestyle medicine; sport and recreation management
Undergraduate certificate: interscholastic athletic/activities administration
Graduate degrees: M.A. in sport and recreation management; M.S. in health and human physiology; Ph.D. in health and human physiology

Facilities

Classroom and research laboratories are located in the Field House and in other buildings on campus. They provide excellent facilities for instruction and research at both the undergraduate and graduate levels.

Cooperative efforts with other units facilitate specialization by allowing Department of Health and Human Physiology students to use additional special facilities and research equipment in other departments on campus (e.g., biology, biochemistry and molecular biology, molecular physiology and biophysics, orthopedic surgery, internal medicine, pharmacology, and the College of Engineering).
