Facilities

Classroom and research laboratories are located in the Field House, Iowa Bioscience Innovation Facility and other buildings on campus. They provide excellent facilities for instruction and research at both the undergraduate and graduate levels.

Cooperative efforts with other units facilitate specialization by allowing Department of Health, Sport, and Human Physiology students to use additional special facilities and research equipment in other departments on campus (e.g., biology, biochemistry and molecular biology, molecular physiology and biophysics, orthopedic surgery, internal medicine, pharmacology, and the College of Engineering).
