

Human Physiology, Minor

HHP:4510	Energetics in Health and Disease	3
HHP:4520	Clinical Pharmacology	3

Requirements

The undergraduate minor in human physiology requires a minimum of 17 s.h. in Department of Health, Sport, and Human Physiology courses. Students must maintain a grade-point average of at least 2.00 in all courses taken for the minor and in all UI courses to earn the minor. Coursework in the minor may not be taken pass/nonpass. CLAS minors may only be earned concurrent with or subsequent to earning a University of Iowa bachelor's degree. They cannot be granted as standalone credentials or as the sole program of study completed at the University of Iowa. Transfer credit does not count toward the minor.

Students who earn a BS in human physiology may not earn the minor in human physiology.

The minor is designed to provide an in-depth study of human structure and function. Students must complete a human physiology course plus elective coursework as indicated in the "Electives" course list. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

The minor in human physiology requires the following coursework.

Core Course

Course #	Title	Hours
This course:		
HHP:3550	Human Physiology With Laboratory	5

Electives

Course #	Title	Hours
12 s.h. from these:		
HHP:3105 & HHP:3110	Anatomy for Human Physiology and Advanced Anatomy Laboratory	5
or HHP:3115	Anatomy for Human Physiology With Lab	
HHP:3450	Immunology in Health and Disease	3
HHP:4110	Advanced Human Anatomy Laboratory	4
HHP:4130	Skeletal Muscle Physiology	3
HHP:4150	Clinical Exercise Physiology	3
HHP:4220	Biomechanics of Human Motion	3
HHP:4230	Motor Control Theory	3
HHP:4250	Human Pathophysiology	3
HHP:4260	Respiratory Pathophysiology	3
HHP:4300	Neurophysiology	3
HHP:4410	Integrative Physiology of Exercise	3
HHP:4460	Cardiovascular Physiology	3
HHP:4470/ASP:4470	Physiology of Aging	3
