

International Relations, BS

Requirements

The Bachelor of Science with a major in international relations requires a minimum of 120 s.h., including at least 40 s.h. of work for the major. At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core. Coursework in the major may not be taken pass/nonpass. Courses graded on a satisfactory/unsatisfactory basis may not count toward major requirements.

In planning coursework, students should be guided by the College of Liberal Arts and Sciences maximum hours rules: students earning a BS may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Students who are earning two majors from the same department (e.g. a BS in international relations and a BS in political science), two degrees from the same department (e.g. a BS in international relations and a BA in political science), or a major and a minor from the same department (e.g. a BS in international relations and a minor in political science) may apply more than 56 s.h. from their home department toward their degree, but they must earn at least 56 s.h. of credit in courses outside their home department in order to graduate.

Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track.
