Music, B.M.

Requirements

The Bachelor of Music requires a minimum of 120 s.h. of credit. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core.

The program offers concentrations in composition, music therapy, and performance. Students seeking licensure/certification in music education or music therapy should enroll in the B.M. program.

Many students earn more than 120 s.h. in fulfilling the requirements for their majors—for instance, those who choose the music therapy concentration or seek teacher certification. The College of Liberal Arts and Sciences maximum hours rule does not apply to the Bachelor of Music, so B.M. students may count more than 56 s.h. of coursework in music toward the degree.

To register for MUS:1201 Musicianship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I or already have completed that course or have been exempted from it by proficiency exam. To register for MUS:1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II or already have completed that course or are exempt from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempt by proficiency exam.

Six semesters of MUS:1210 Recital Attendance are required for all B.M. students, except music therapy students, who are required to take four semesters. Transfer students should plan to enroll in this course each of their remaining semesters, or until the requirement is met.

To complete the senior recital, students must have achieved upper-level applied status or be enrolled in upper-level applied music courses (see "Applied Music" below). Music therapy students may complete a senior recital or a senior research project. Composition students substitute MUS:4910 Bachelor's Thesis for the senior recital. The senior recital, research project, or thesis must be completed at the University of Iowa.

Applied Music

Students must complete four years of applied music. Instruction is provided on two levels, lower and upper. Students must achieve upper-level status before they may present their senior recital. Readiness for upper-level applied music is determined by a jury examination in the area. The eighth semester of applied music may be waived for students who have successfully completed a senior recital, are enrolled in the Teacher Education Program (TEP), and are student teaching. Students are allowed a maximum of six semesters (not including summer) in lower-level applied instruction. Those who want to continue lessons beyond the maximum allowable lower-level registration must do so under the nonmajor category.

Composition students are required to take 6 s.h. of lower-level applied music and 2 s.h. of secondary piano.

Music therapy students who complete a senior research project rather than a senior recital are required to take three years of lower-level applied music.

Ensemble Participation

Students must complete eight semesters of major ensemble participation. They enroll in a major ensemble during consecutive semesters, beginning early in their degree work, to ensure timely completion of the requirement. Ensemble assignments are made at the discretion of the major teacher and ensemble director. String students participate in Orchestra. Wind and percussion students participate in Symphony Band and Concert Band. Voice students participate in Camerata Singers, University Choir, Kantorei, and Voxman Chorale. Keyboard students may substitute accompaniment for major ensemble participation for two semesters during their junior and/or senior years, with their major applied-music teacher's consent. Composition students may, with their advisor's consent, substitute two semesters of other ensembles during their junior and/or senior year.

Music therapy students who complete a senior research project rather than a senior recital are required to complete 6 s.h. of major ensemble participation.

Any student who wants to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the associate director for undergraduate studies.

Major ensembles are as follows.

Electives

Students may take advanced electives in performance (including chamber music and piano accompaniment), theory, composition, music education, music therapy, music history, diverse music cultures, music literature, conducting, and orchestration.

Concentration Areas

- Composition Concentration [p. 2]
- Music Therapy Concentration [p. 2]
- Performance [p. 5]-[p. 5]Jazz Concentration [p. 5]
- Performance [p. 5]-[p. 5]Organ Concentration [p. 5]
- Performance [p. 6]-[p. 6]Percussion Concentration [p. 6]
- Performance [p. 8]-[p. 8]String Concentration [p. 8]
• Performance [p. 9]- [p. 9]

Voice Concentration

Composition Concentration

Applicants to the composition concentration must submit a portfolio of creative work to the composition faculty for evaluation and acceptance into the program. Students who wish to prepare a portfolio may register for evaluation and acceptance into the program. Students who wish to prepare a portfolio may register for evaluation and acceptance into the program.

The composition concentration requires the following coursework.

Musicianship

The composition concentration is open to students who have been admitted to a performance area in the School of Music. The composition concentration is open to students who have been admitted to a performance area in the School of Music.

The composition concentration requires the following coursework.

Musicianship

The composition concentration is open to students who have been admitted to a performance area in the School of Music.

<tr>
<td>MUS:5236</td>
<td>Non-Tonal Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives

Students complete 6 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors. If students took either MUS:4200 Counterpoint Before 1600 or MUS:4201 Counterpoint After 1600 as a required supportive course above, they cannot use it as an elective.

The courses MUS:3190 Center for New Music Ensemble and MUS:4251 Composition: Electronic Media II are recommended for composition concentration students.

Music Therapy Concentration

Admission to the music therapy concentration is based on successful completion (grade of C-plus or higher) in MUS:1687 Orientation to Music Therapy. Students must earn a B-minus or higher in all remaining music therapy core courses. In addition to the core courses in music therapy listed below, specific courses are required in biology, anatomy, psychology, and music.

A six-month, full time internship in an American Music Therapy Association (AMTA) approved off-campus clinical facility is required for completion of the degree. There are a limited number of approved music therapy internships in the Iowa City area, and many internship placements require relocation to a different city. Students are eligible to begin applying for their internship one year prior to the start of the internship. Securing an internship typically involves completing application materials, interviewing on site or via electronic platform, and demonstrating musical competencies. Students are not automatically placed in internships, but must work with the clinical advisor to select and apply for appropriate programs. Following successful completion of the internship, students are eligible to take the board certification examination in music therapy. This exam is offered through the Certification Board for Music Therapists and leads to national board certification as a music therapist, with the credential music therapist-board certified (MT-BC).

Since music therapists work with vulnerable populations, the School of Music is required to run a criminal background check on all students when they begin their clinical experiences.
Criminal convictions could negatively impact a student’s ability to continue in the music therapy program and/or gain placement at an internship site. For more information, contact the director of the music therapy program.

The music therapy concentration requires the following coursework.

**Musicianship**

PSY:2301  Introduction to Clinical Psychology  3
PSY:2601  Introduction to Cognitive Psychology  3
PSY:2701  Introduction to Behavioral Neuroscience  4
Clinical option students take 4 s.h. from these:
MUS:1120  Secondary Performance - Voice  1
MUS:1121  Secondary Performance - Piano  1
MUS:1137  Secondary Performance - Percussion  1
MUS:3163  Intermediate Steel Band  1
Other courses approved by advisor

Music therapy students who elect the senior recital/performance option must take four years of applied music and attain upper-level status; they also must take 8 s.h. of major ensemble participation. Vocal majors choosing this option also must take MUS:1510 Diction for Singers I and MUS:2510 Diction for Singers II.

Music therapy students who elect the senior project/clinical option must take three years of applied music and 6 s.h. of major ensemble. They also must take an additional 4 s.h. of music performance courses in areas such as MUS:1120 Secondary Performance - Voice, MUS:1121 Secondary Performance - Piano, MUS:1137 Secondary Performance - Percussion, MUS:3163 Intermediate Steel Band, or other courses approved by the advisor.

In order to satisfy national certification requirements, all music therapy students must fulfill certain GE CLAS Core requirements with specific courses. Students should consult their music therapy advisor before selecting GE CLAS Core courses.

Performance-Brass/Woodwind Concentration

**Teacher Licensure**

To qualify for licensure to teach in elementary and/or secondary schools (K-12) students must be accepted into the School of Music seeking a Bachelor of Music degree in one of the following performance subprograms: brass/woodwind, jazz, organ, percussion, piano, piano with teacher education, string, or voice. Students must then apply to the Teacher Education Program to concurrently earn a Bachelor of Arts degree in music education. First-year students with at least a high school g.p.a. of at least 3.00 are eligible to apply to the direct admission program in their first semester. All other students may apply after they have completed 30 s.h. at the University of Iowa. For more information, see Music Education on the College of Education website.
