Philosophy, M.A.

Learning Outcomes

**Breadth of knowledge**: demonstrate knowledge of a wide range of areas in philosophy—metaphysics and epistemology; value theory; history of philosophy; and logic, philosophy of mathematics, and philosophy of science.

**Depth of knowledge**: demonstrate advanced knowledge in at least one major subarea of philosophy.

**Scholarship and research skills**: develop the skills required to conduct rigorous philosophical research, including philosophical writing and communication skills; and the ability to engage others’ work.

**Professionalization and career preparation**: understand the disciplinary norms and standards of research, and of professional and collegial engagement with others; and develop a portfolio and skills contributing to one’s career prospects, guided by one’s career goals and interests, and informed by knowledge of different possible career opportunities and trajectories.
