

# Astronomy, BA

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** math through MATH:1850 Calculus I and MATH:1860 Calculus II; and PHYS:1701 Physics I and PHYS:1702 Physics II.

**Before the fourth semester begins:** ASTR:1771 Fundamental Astronomy I: The Solar System and Exoplanets.

**Before the fifth semester begins:** ASTR:1772 Fundamental Astronomy II: Evolution of Stars, Galaxies, and the Universe, PHYS:2703 Physics III, PHYS:2704 Physics IV, and at least one more course in the major.

**Before the seventh semester begins:** three more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** three more courses in the major.

**Before or during the eighth semester:** ASTR:4850 Observational Techniques in Astronomy.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Astronomy, BA

This sample plan is currently being reviewed and will be added at a later date.
