

Religious Studies, Ph.D.

Career Advancement

Graduate students in religious studies acquire a wide range of competencies that are useful for almost any career they pursue. Students gain research skills; they master the craft of writing; they learn to plan, manage, and complete large projects; they gain teaching skills that are useful both inside and outside the academy; they learn to argue persuasively; they gain the ability to communicate with others about controversial issues; they learn how to understand and mediate differences in religious perspectives and values; they acquire rare language skills; and they gain expertise in the use of digital technologies for research and teaching.

Students who earn a Ph.D. in religious studies often go on to become scholars and teachers in university or college settings. Other degree recipients have become professional ethicists, leaders of nongovernmental organizations, school or church administrators, nonacademic educators, digital media specialists, and government employees in the area of international affairs.
