

Social Science Analytics, Certificate

Requirements

The undergraduate Certificate in Social Science Analytics requires a minimum of 18 s.h. Students complete requirements in five different component areas for a total of at least six courses. Students must maintain a grade-point average of at least 2.00 in work for the certificate. Up to 6 s.h. of transfer credit may be counted toward certificate requirements.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Some of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

The Certificate in Social Science Analytics requires the following coursework.

Requirements	Hours
Introduction to Data and the Social Sciences Course	3
Social Science Research Design and Data Analysis Course	3
Core Statistics Courses	6-7
Building Skills and Data Science Course	3-4
Applied Research Experience	3

Introduction to Data and the Social Sciences

Course #	Title	Hours
This course:		
POLI:1050/ RELS:1050	Big Ideas: Introduction to Information, Society, and Culture	3

Social Science Research Design and Data Analysis

Course #	Title	Hours
One of these:		
POLI:2000	Designing Political Research	3
