

# Palliative Care, Professional Certificate

## Admission

Students may apply to the certificate program in the fall semester of the second professional year (P2). Accepted students start the longitudinal course, PHAR:8798 Continuing Professional Development in Palliative Care, in the spring semester of the second professional year (P2).

Applicants must be in good academic standing as defined in the Student Handbook and have a College of Pharmacy cumulative grade-point average of at least 2.70 to apply. The Certificate in Palliative Care admission committee reviews all applications holistically.

Admitted students demonstrate preparedness to engage in a challenging certificate curriculum without compromising their success in the PharmD program and an understanding of what palliative care is and of the program's requirements.
