Palliative Care, Professional Certificate

Admission

Students may apply in their fall P2 semester to begin the program and then take the longitudinal course, PHAR:8798 Continuing Professional Development in Palliative Care, in their spring P2 semester.

Applicants must be in good academic standing, as defined in the Student Handbook, and have a College of Pharmacy cumulative g.p.a. of at least 2.70. The Certificate in Palliative Care Admission Committee reviews all applications holistically.

Admitted students demonstrate:

• preparedness to engage in a challenging certificate curriculum without compromising their success in the Pharm.D. program, and
• an understanding of what palliative care is and of the program’s requirements.
