Palliative Care, Professional Certificate

Admission

Students may apply in their fall P2 semester to begin the program and then take the longitudinal course, PHAR.8798 Continuing Professional Development in Palliative Care, in their spring P2 semester.

Applicants must be in good academic standing, as defined in the Student Handbook, and have a College of Pharmacy cumulative grade-point average of at least 2.70. The Certificate in Palliative Care Admission Committee reviews all applications holistically.

Admitted students demonstrate:

• preparedness to engage in a challenging certificate curriculum without compromising their success in the PharmD program, and
• an understanding of what palliative care is and of the program’s requirements.
