

# Emerging Infectious Disease Epidemiology, Graduate Certificate

## Requirements

The graduate Certificate in Emerging Infectious Disease Epidemiology requires 13 s.h. of graduate credit. Students must complete the certificate's required coursework within five years of entering the program and must maintain a Graduate College major program grade-point average of at least 2.75 in work toward the certificate. Three of the required courses must be completed on campus: EPID:5570 Zoonotic Diseases, EPID:5580 Public Health Laboratory Techniques, and EPID:6550 Epidemiology of Infectious Diseases. The remaining courses may be completed on campus or by distance education.

The certificate program provides basic information and training related to infectious diseases. It is designed for a broad range of individuals, including graduate students, international public health professionals, laboratory professionals, physicians, nurses, veterinarians, and medical technologists.

The Certificate in Emerging Infectious Disease Epidemiology requires the following coursework.

Course #	Title	Hours
All of these (7 s.h.):		
EPID:5570	Zoonotic Diseases	3
EPID:5580	Public Health Laboratory Techniques	1
EPID:6550	Epidemiology of Infectious Diseases	3
Two of these (6 s.h.):		
BIOS:4120	Introduction to Biostatistics	3
EPID:4400	Epidemiology I: Principles	3
EPID:5550	Diagnostic Microbiology for Epidemiology	3
OEH:4240	Global Environmental Health	3

Students with a medical laboratory background may petition the program to waive up to 3 s.h. (or 1 course) and substitute an additional epidemiology course (prefix EPID) to count toward the certificate.

For more information about the program, visit the Certificate in Emerging Infectious Disease Epidemiology on the Department of Epidemiology website.
