Website: <https://www.public-health.uiowa.edu/hmp/>

Facilities

The Center for Health Policy and Research, the research arm of the Department of Health Management and Policy, is a university-wide interdisciplinary research facility. Faculty members from the Carver College of Medicine, the Tippie College of Business, and the colleges of Dentistry, Liberal Arts and Sciences, Nursing, Pharmacy, and Public Health serve as investigators in a variety of studies at the center. Graduate students assist with ongoing research projects.

Primary project funding for the center comes from the National Institutes of Health, the state of Iowa, the Agency for Healthcare Research and Quality, and the Patient-Centered Outcomes Research Initiative, as well as from foundations and private organizations.

The center also sponsors educational activities and promotes collaboration among health organizations through frequent exchanges with professional and provider associations, policy and planning groups, insurance organizations, health delivery institutions, and other members of the health services research community.
