

# Health Services and Policy Research, MS

## Learning Outcomes

Upon completion of the MS in health services and policy research, students will be able to:

- evaluate the organization, financing, and delivery of U.S. health services;
- evaluate policies for their impact on public health and health equity;
- analyze the behavior of health care market stakeholders using the principles of health economics;
- select the appropriate study design and statistical models for health services research questions and outcomes;
- use statistical computing programs to analyze quantitative data; and
- conduct a study using health services research methods.
