Master of Accountancy, M.Ac.

The Master of Accountancy (M.Ac.) is a nonthesis program. Coursework focuses on the conceptual and economic foundations of accounting with applications to current and emerging problems of professional practice. M.Ac. students also have the opportunity to acquire expertise in one of four specialization areas: financial accounting/auditing, business analytics, taxation, and managerial accounting.

Graduate students in accounting are subject to the probation and dismissal rules of the Graduate College and are governed by the full-time M.B.A. honor code.

Requirements

The Master of Accountancy requires 30 s.h. beyond the B.B.A. The program permits students to specialize in accounting areas according to their interests and objectives. It builds on the technical skills acquired in the undergraduate program, broadens students’ perspectives on the role of accounting in organizations and decision making, and further develops written and oral communication skills.

Students from a variety of academic backgrounds enter the M.Ac. program. Those who enter with an undergraduate degree in accounting can expect to complete the degree in 12 months. Those who enter with a non-accounting undergraduate degree typically require four semesters to complete the M.Ac. Study plans are adjusted to reflect each student’s particular academic background; see “Students Without Undergraduate Accounting Degrees” below.

The 30 s.h. required for the M.Ac. must include at least 12 s.h. in graduate-level accounting courses and at least 21 s.h. in courses numbered 5000 or above. Some work for the specialization areas is cross-disciplinary, with courses from other departments as well as accounting.

The Master of Accountancy requires the following coursework. Students complete the requirements for their chosen specialization or for the core program.

Specialization in Financial Accounting/Auditing

**General Electives**
- Total of 6 s.h. 6

### Students Without Undergraduate Accounting Degrees

Coursework for students who enter the program with a non-accounting bachelor’s degree is determined by each student’s background and interest area. In addition to meeting the core program requirements for the M.Ac., students typically take a combination of undergraduate and M.B.A. courses to remove academic deficiencies in quantitative methods, business, and accounting. Students with a bachelor’s degree in another area of business typically are required to take 45-51 s.h. in order to complete the M.Ac. program. Those with degrees outside of business and with no accounting courses typically are required to take 57-60 s.h.

### CPA Examination and the Iowa Accountancy Act

The Iowa Accountancy Act requires individuals who wish to take the Certified Public Accountant (CPA) examination to have a bachelor’s degree, 24 s.h. of business coursework, and 24 s.h. of accounting coursework beyond ACCT:2100 Introduction to Financial Accounting.

### Combined Programs

**M.Ac./J.D.**

The Department of Accounting and the College of Law offer the combined Master of Accountancy/Juris Doctor program. The combined M.Ac./J.D. requires a minimum of 18 s.h. of graduate coursework in accounting. Students in the program may count up to 12 s.h. of College of Law courses as electives for the M.Ac. and up to 12 s.h. of graduate accounting courses as electives for the J.D.

Separate application to each degree program is required. Applicants must be admitted to each program before they may be admitted to the combined program.

For information about the J.D. degree, see Juris Doctor, J.D. (College of Law) in the Catalog.

### Admission

Admission to the M.Ac. program is competitive. The admissions committee reviews applications individually, considering quantitative aspects (grade-point average and GMAT scores) and qualitative aspects of each applicant’s background and professional experience (if applicable) to assess an applicant’s potential for academic success and professional growth.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Application materials must include the following:
- an application for graduate admission;
- official transcripts of all undergraduate and graduate coursework submitted by each institution an applicant has attended;
- official scores on the Graduate Management Admission Test (GMAT), unless the student is a B.B.A. major in accounting at the University of Iowa;
- a supplemental application form with essay responses;
- a résumé and cover letter; and
- at least three letters of reference from former instructors or employers unless the student is a B.B.A. major in accounting at the University of Iowa.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) or the Duolingo English Test (DET).

For complete information about application procedures, contact the Department of Accounting.

### Application Deadlines

The Department of Accounting admissions committee reviews completed M.Ac. application files (which must include official GMAT scores) on five dates: March 1, April 15, July 15, October 1, and December 1. Applications are reviewed on these dates regardless of whether the applicant plans to begin the M.Ac. program in the fall semester (August), spring semester (January), or summer session (May). Final Graduate College application deadlines are as follows.
Fall semester entry: July 15 (April 15 for international students)
Spring semester entry: December 1 (October 1 for international students)
Summer session entry: April 15 (March 1 for international students)

Students who wish to apply for a teaching assistantship must apply to the M.Ac. program no later than March 1.

Career Advancement

Over 95 percent of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs; for more information about careers, visit the Pomerantz Career Center website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.
