

# Business Analytics (career), M.S.

Organizations are swimming in data, but often lack the talent and expertise to use it effectively for making decisions, revealing insights, and making predictions. Business analytics experts are changing that. The full-time Master of Science program in business analytics puts students on the leading edge of a burgeoning industry hungry for top notch talent.

Students learn the skills and techniques necessary to turn raw data into actionable insights. Descriptive and diagnostic analytics are just starting points in the program. The skills learned develop students into decision-makers and data scientists adept at using predictive and prescriptive analytics to solve business problems.

The full-time science, technology, engineering, and mathematics (STEM) designated program is located in Iowa City. The plan of study spans three semesters and includes core courses, internships, and electives. Students have the opportunity to enroll in a combined degree program with an M.S. in finance, and current University of Iowa undergraduate students may apply to a combined undergraduate degree/M.S. graduate degree program. See "Combined Programs" in this section of the catalog for details.

## Learning Outcomes

Graduates will exhibit knowledge and skills relevant to data and its applications in business. They will demonstrate competence in the subareas of:

- descriptive analytics;
- predictive analytics; and
- prescriptive analytics.

Graduates will create and communicate solutions to data-related business problems that impact their organizations and communities. They will:

- approach, address, and solve a loosely defined business problem requiring the use, exploration, and analysis of data; and
- communicate effectively through oral, written, and visual forms.

Graduates will understand and explore ethical and privacy issues related to the use of data in the modern world. They will:

- contemplate ethical and privacy issues arising in their own work; and
- express a working knowledge of the major ethical and privacy issues facing the business-analytics profession, supported with examples from current events.

Graduates will demonstrate the ability to be effective team members in a diverse and complex world. They will:

- engage in effective team processes; and
- lead and support others to achieve collective goals.

## Requirements

The full-time Master of Science program in business analytics requires a minimum of 40 s.h. of graduate credit. Transfer credit may be accepted with approval from the program. A

major grade-point average (GPA) and a cumulative GPA of at least 2.75 is required in all coursework.

The M.S. with a major in business analytics requires the following coursework.

Code	Title	Hours
Core Courses		19
Experience Course/Project		3
Electives		18
<b>Total Hours</b>		<b>40</b>

## Core Courses

Code	Title	Hours
All of these:		
BAIS:6040	Data Programming in Python	3
BAIS:6050	Data Management and Visual Analytics	3
BAIS:6070	Data Science	3
BAIS:8130	Business Communication (taken fall and spring semester for 1 s.h. each)	2
BAIS:9100	Data and Decisions	3
BAIS:9110	Advanced Analytics	3
BAIS:9400	Professional Development and Business Acumen (taken fall and spring semester for 1 s.h. each)	2

## Experience Course/Project

The experience course consists of a group project that solves a semester-long business problem.

Code	Title	Hours
This course:		
BAIS:6120	Analytics Experience	3

## Electives

Elective coursework allows students to deepen or broaden their skills. Additional electives may be available for credit but must be preapproved.

Code	Title	Hours
18 s.h. from these:		
BAIS:4280	Cybersecurity	3
BAIS:6060	Data Analysis with R	3
BAIS:6100	Text Analytics	3
BAIS:6105	Social Analytics	3
BAIS:6110	Big Data Management and Analytics	3
BAIS:6130	Applied Optimization	3
BAIS:6140	Information Visualization	3
BAIS:6150	Financial Analytics	3
BAIS:6170	Directed Readings - Graduate Business Analytics	arr.
BAIS:6180	Healthcare Analytics	3
BAIS:6190	Forecasting	3
BAIS:6210	Data Leadership and Management	3
BAIS:6220	Business Analytics Certification Workshop	3
BAIS:6230	People Analytics	3

BAIS:6400	Cloud Computing	3	PSQF:6243/ STAT:6513	Intermediate Statistical Methods	3
BAIS:9210	Introduction to Modeling with VBA	3	PSQF:6246/ STAT:6516	Design of Experiments	3
ACCT:9170	Advanced Accounting Analytics	3	PSQF:6250	Computer Packages for Statistical Analysis (not recommended if completed BAIS:6060)	1-3
BIOS:5120/ IGPI:5120/ STAT:5610	Regression Modeling and ANOVA in the Health Sciences	3	STAT:4100/ IGPI:4100	Mathematical Statistics I	3
BIOS:5310/ IGPI:5310/ STAT:5810	Research Data Management	3	STAT:4101/ IGPI:4101	Mathematical Statistics II	3
CS:3210	Programming Languages and Tools	arr.	STAT:4200/ IGPI:4200	Statistical Methods and Computing	3
CS:4420	Artificial Intelligence	3	STAT:4540/ BAIS:4540/ DATA:4540/ IGPI:4540	Statistical Learning	3
CS:4470	Health Data Analytics	3	STAT:4560	Statistics for Risk Modeling I	3
CS:5110/IGPI:5110	Introduction to Informatics	3	STAT:5100	Statistical Inference I	3
CS:5430	Machine Learning	3	STAT:5200/ IGPI:5199	Applied Statistics I	4
ECE:5450/IGPI:5450	Machine Learning	3	STAT:5400/ DATA:5400/ IGPI:5400	Computing in Statistics	3
ECE:5490	Multi-Dimensional Image Analysis Tools and Techniques	3	STAT:6560	Applied Time Series Analysis	3
ECON:4800	Econometric Analysis	3	STAT:7400/ IGPI:7400	Computer Intensive Statistics	3
ECON:5800	Econometrics	3	URP:6200/ PBAF:6200	Analytic Methods I	1-3
ECON:5805	Statistics for Economics	3	URP:6225/ PBAF:6225	Applied GIS for Planning and Policy Making	1-3
EPID:5200/ IGPI:5220	Principles of Public Health Informatics	3	May include 6 s.h. from these:		
FIN:9160	Quantitative Finance and Deep Learning	0,3	ENTR:9800	Entrepreneurship: Advanced Business Planning	1-3
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3	MBA:8140	Corporate Financial Reporting	3
GEOG:3540/ IGPI:3540	Geographic Visualization	3	MBA:8170	International Economic Environment of the Firm	3
GEOG:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3	MBA:8180	Managerial Finance	3
GEOG:4580/ IGPI:4581	Introduction to Geographic Databases	3	MGMT:3200	Individuals, Teams, and Organizations	3
GEOG:5540/ IGPI:5540	Geographic Visualization	3	MGMT:9150/ HMP:6360/ PBAF:6278/ RELS:6070/ SPST:6010/ SSW:6247/ URP:6278	Nonprofit Organizational Effectiveness I	3

ISE:4172	Big Data Analytics	3	PSQF:5165/ EPLS:5165	Introduction to Program and Project Evaluation	3
ISE:6380	Deep Learning	3			
ISE:6760	Pattern Recognition for Financial Data	3			
ISE:6780	Financial Engineering and Optimization	3			
JMC:3640	Information and Data Visualization	3-4			
MATH:4250	Introduction to Financial Mathematics	3			
ME:4111/CEE:4511	Scientific Computing and Machine Learning	3			
ME:4150	Artificial Intelligence in Engineering	3			
MKTG:9165	Digital Marketing Analytics	3			
MKTG:9310	Marketing Analytics	3			
POLI:3001	Hawkeye Poll	3			
PSQF:6209/ EPLS:6209	Survey Research and Design	3			

## Combined Programs

### Undergraduate Degree/M.S.

Students working on an undergraduate degree program at the University of Iowa who are interested in earning an M.S. in business analytics may apply to a combined undergraduate degree/M.S. graduate degree program. The Undergraduate to Graduate (U2G) program enables students to begin work on an M.S. degree as they complete their baccalaureate degree. Combined degree programs enable students to earn both degrees in less time than it would take to earn the two degrees separately.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. Visit the M.S. in business analytics Undergraduate to Graduate page on the Tippie College of Business website for more information.

### M.S./J.D.

The combined Master of Science in business analytics (career subprogram)/Juris Doctor allows students to pursue two degrees simultaneously, earning both more quickly than they would if the degrees were pursued separately. The Department of Business Analytics collaborates with the College of Law to offer the combined program.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined program. For more information, see the Juris Doctor, J.D. (College of Law) in the catalog.

### M.S./M.S. in Finance

The combined Master of Science in business analytics (career subprogram)/Master of Science in finance allows students to pursue two degrees simultaneously, earning both more quickly than they would if the degrees were pursued separately. The Department of Business Analytics collaborates with the Department of Finance to offer the combined program.

A single admission application is available for the combined degree program. For more information, see the M.S. in finance in the catalog.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants must:

- have earned a bachelor's degree from a U.S. college or university, or have earned an equivalent degree from another country;
- submit unofficial transcripts with their application and official transcripts for admission;
- have earned a minimum grade-point average of at least 3.00 or the international equivalent;
- submit a current résumé that includes information about employment (if applicable), education, extracurricular activities, and community involvement; and

- submit a statement of purpose with a maximum length of 500 words.

Applicants whose first language is not English must submit official test scores to verify English proficiency. They can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET). Applicants who use the IELTS or DET are required to take the on-campus English Proficiency Examination.

Application deadlines are as follows.

- Priority deadline: Dec. 15.
- International student deadline: March 15.
- Domestic student deadline: June 15.

Visit the M.S. in business analytics Admissions page on the Tippie College of Business website for full admission details.

## Career Advancement

The Graduate Career Services team offers multiple resources to help students find internships and jobs. Visit **Graduate Career Services** on the Tippie College of Business website for details.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.
