Economics

Chair
• David J. Cooper

Undergraduate major: economics (BA, BS, BBA)
Undergraduate minor: economics
Graduate degrees: MA in economics; PhD in economics
Faculty: https://tippie.uiowa.edu/people?department=Economics
Website: https://tippie.uiowa.edu/about/economics-department

Courses

Students may take ECON:1100 Principles of Microeconomics and ECON:1200 Principles of Macroeconomics in either order or simultaneously. They are approved for the Social Sciences area of the College of Liberal Arts and Sciences GE CLAS Core.

Qualified undergraduates may enroll in graduate-level courses with consent of the department chair.

Economics Courses

ECON:1100 Principles of Microeconomics 4 s.h.
Organization, workings of modern economic systems; role of markets, prices, competition in efficient allocation of resources and promotion of economic welfare; international trade. Requirements: BBA students cannot use this course for GE CLAS Core Social Sciences. GE: Social Sciences.

ECON:1200 Principles of Macroeconomics 4 s.h.
National income and output, unemployment, and inflation; economic growth and development; money and credit; monetary and fiscal policy; government finance; international finance. Requirements: BBA students cannot use this course for GE CLAS Core Social Sciences. GE: Social Sciences.

ECON:1300 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

ECON:3050 Professional Preparation in Economics 1 s.h.
Overview of career avenues for economics majors; how to pursue different career paths and synergies with other courses/majors; development of hard and soft skills required for success in those careers; discussion of use of economics to understand current events; development of skills, strategy, and tools for successful internship and employment search.

ECON:3100 Intermediate Microeconomics 3 s.h.
Economic theory of the behavior of consumers, producers, and other economic agents; role of markets in coordinating economic activity; effects of government policies on market outcomes; conditions that markets require for efficient allocation of resources; market imperfections; strategic behavior of economic actors. Prerequisites: ECON:1100 and (MATH:1350 or MATH:1380 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860).

ECON:3125 Intermediate Microeconomics: Advanced 3 s.h.
Economic theory of the behavior of consumers, producers, and other economic agents; role of markets in coordinating economic activity; effects of government policies on market outcomes; conditions that markets require for efficient allocation of resources; market imperfections; strategic behavior of economic actors; similar to ECON:3100, but with more rigorous examination of topics and use of calculus. Prerequisites: ECON:1100 and MATH:1850 and MATH:1860.

ECON:3150 Intermediate Macroeconomics 3 s.h.
Measurement of macroeconomic indicators; economic growth and business cycles; use of macroeconomic models to study the role of government fiscal and monetary policies. Prerequisites: ECON:1200 and (MATH:1350 or MATH:1380 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860).

ECON:3300 Introduction to Econometrics 3 s.h.
Statistical tools used in economic analysis; regression models; estimation and hypothesis testing; causal effects; application to economic data and questions; use of statistical software. Prerequisites: STAT:1030 and (MATH:1350 or MATH:1380 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860).

ECON:3325 Personnel Economics 3 s.h.
Microeconomic analysis of labor markets with special emphasis on strategic personnel choices of the firm; labor supply decisions made by workers; labor demand decisions made by firms; labor market equilibrium; returns to education; hiring, job design, evaluation, and compensation. Prerequisites: ECON:1100.

ECON:3335 Money, Banking, and Financial Markets 3 s.h.
Role of money and financial institutions in determining domestic and international income, employment, and prices. Prerequisites: ECON:1100 and ECON:1200.

ECON:3345 Global Economics and Business 3 s.h.
Modern theories of international trade and investment; impact of tariffs and other restrictions on international trade; effects of export and production subsidies; free trade agreements; exchange rates and foreign exchange markets; international monetary arrangements; balance of payments; international economic policy. Prerequisites: ECON:1100 and ECON:1200.

ECON:3350 Industry Analysis 3 s.h.
Structural evolution; imperfect competition; resource allocation; development of public policy on monopoly; selected industries. Prerequisites: ECON:1100.

ECON:3355 Economic and Business Forecasting 3 s.h.
Development and utilization of forecasts of business and economic variables; application of modern statistical methods and software to quantitative forecasting problems. Prerequisites: ECON:1100 and ECON:1200 and (ECON:3300 or ECON:4800 or STAT:3200).

ECON:3360 Experimental Economics 3 s.h.
Experimental economics has significantly changed how economists think about many issues; techniques of experimental economics and major applications of these techniques; how to run an economic experiment; four major areas of economics that have been fundamentally changed by experimental economics include individual decision-making, models of fairness and reciprocity, game theory and applications, and markets; student participation and presentations of student research projects. Prerequisites: ECON:1100.
it well; behavioral economists seek to improve microeconomic
decisions. We know exactly how to maximize our own utility, and we do
do it well; behavioral economists seek to improve microeconomic
theory with more realistic assumptions about human behavior.
Prerequisites: ECON:1100.

ECON:3380 Business and Government 3 s.h.
Examination of relationship between government, private
sector, and citizenry; legal, regulatory, market, and civic
context in which private sector functions; how business
owners and entrepreneurs have shaped political and
economic outcomes in the United States; central theme of
exploring and understanding the nature of government policy,
how policy affects businesses, and how policy affects societal
welfare. Prerequisites: ECON:1100.

ECON:3620 Economic Growth and Development 3 s.h.
Determinants of rising living standards; accumulation of
physical and human capital; predictions of economic growth
models compared to observed changes in living standards.
Prerequisites: ECON:1100 and ECON:1200.

ECON:3625 Environmental and Natural Resource
Economics 3 s.h.
Environmental and resource use problems; efficient
mechanisms and other policies for environmental protection,
management of common property resources. Prerequisites:
ECON:1100 and ECON:1200. Same as URP:3135.

ECON:3640 Regional and Urban Economics 3 s.h.
Theory of location and regional development; central place
theory; why cities exist and trade with one another; models
of land use patterns, rents; empirical tests of models; policy
applications. Prerequisites: ECON:1100. Same as URP:3134.

ECON:3650 Policy Analysis 3 s.h.
Economic functions of government in modern economies;
effects of government expenditures and taxation on allocation
of resources. Prerequisites: ECON:1100.

ECON:3690 Sports Economics 3 s.h.
Theory and literature of economic issues in professional
sports; issues such as relative advantages of large-and
small-market teams, city subsidies for baseball and
football stadiums, star players' true value to their teams;
ideas from introductory economics (such as demand and
cost curves) combined with additional economic theory,
statistical evidence, and information about particular sports.
Prerequisites: ECON:1100.

ECON:3750 Transportation Economics 3 s.h.
Overview of transportation markets—intercity, rural, urban;
transit; issues in finance, policy, planning, management,
physical distribution, and environmental, economic, and
safety regulation. Recommendations: ECON:1100
and ECON:1200. Same as GEOG:3940, URP:3350.

ECON:3760 Health Economics 3 s.h.
Externalities and health behaviors; government influence on
health behaviors; overview of health insurance and health
insurance markets; health care costs; public health insurance;
health insurance reforms. Prerequisites: ECON:1100.

ECON:3800 Law and Economics 3 s.h.
Law examined through analytic tools of microeconomics;
impact of legal rules on resource allocation, risk bearing,
distribution of economic well-being. Prerequisites: ECON:1100.

ECON:3850 Behavioral Economics 3 s.h.
Behavioral economics is a relatively new field that applies
insights gleaned from psychology to economics; standard
economic theory assumes people are all *homo economicus*:
we know exactly how to maximize our own utility, and we do
it well; behavioral economists seek to improve microeconomic
theory with more realistic assumptions about human behavior.
Prerequisites: ECON:1100.

ECON:3870 Federal Reserve Challenge 1 s.h.
Experience what Federal Reserve economists do every
day: study the real U.S. economy, make forecasts and
policy recommendations, defend their views to academic
and professional economists; development of analytical
skills, teamwork, how to build presentations. Prerequisites:
ECON:3100 and ECON:3150.

ECON:3875 Topics in Policy Economics 3 s.h.
Topics vary. Prerequisites: ECON:1100 and ECON:1200.

ECON:4050 Readings and Independent Study in
Economics 3 s.h.

ECON:4090 Natural Resource Economics 3 s.h.
Economics of natural resources; interaction between
economic theory, empirical evidence, and public policy;
land, water, fish, trees, minerals; externalities. Prerequisites:
ECON:3100.

ECON:4110 International Economics 3 s.h.
Neoclassical model of international trade; imperfect
competition and international trade and investment; role of
trade barriers; regional trade agreements and the World Trade
Organization. Prerequisites: ECON:1100 and ECON:1200.

ECON:4140 Labor Economics 3 s.h.
Labor supply and demand; investments in human capital;
compensating wage differentials; discrimination; long-term
contracts; occupational choice; family decisions; unions;
immigration. Prerequisites: ECON:3100.

ECON:4160 Public Sector Economics 3 s.h.
Economic functions of government; social welfare programs;
income distribution; policies that address market failures;
budgetary processes; effects of government expenditures;
taxation. Prerequisites: ECON:3100 and ECON:3150.

ECON:4170 Monetary Economics 3 s.h.
Demand for and supply of money; money's role in economy;
empirical studies of money's impact; problems with monetary
control. Prerequisites: ECON:3100 and ECON:3150.

ECON:4180 Industrial Organization 3 s.h.
Market structure; effects of business practices, informational
problems on market structure; appraisal of antitrust policies,
government regulation of business. Prerequisites: ECON:3100.

ECON:4190 Mathematical Economics 3 s.h.
Mathematical structure of economic principles, problems,
systems; may include constrained optimization, choice under
uncertainty, general equilibrium and welfare economics,
dynamical systems and control theory, game theory.
Prerequisites: ECON:3100 and ECON:3150.

ECON:4200 Game Theory 3 s.h.
Basic concepts of game theory including dominance,
backward induction, Nash equilibrium, evolutionary stability,
commitment, credibility, asymmetric information, adverse
selection, signaling; provides students with a working
understanding of game theory; examples drawn from
economics and politics. Prerequisites: ECON:3100
and ECON:3150.

ECON:4700 Topics in Analytical Economics 3 s.h.
Topics vary. Prerequisites: ECON:3150 and ECON:3100.

ECON:4800 Econometric Analysis 3 s.h.
Linear regression models; causal effects; estimation and
hypothesis testing; errors in variables; simultaneous
equations; panel data; instrumental variables; limited
dependent variables; emphasis on interpretation, methods,
application of econometric modelling, and use of statistical
software. Prerequisites: STAT:3101 or STAT:3120.
### ECON:4999 Honors Thesis in Economics
- **Hours:** arr.
- **Description:** Independent research project supervised by economics faculty member; culminates in thesis required for honors in the major.
- **Prerequisites:** ECON:3100 and ECON:3150 and (ECON:3300 or ECON:4800).

### ECON:5000 Economic Analysis I
- **Hours:** 3 s.h.
- **Description:** Basic metric topology, convex analysis, function spaces, measure theory and integration.

### ECON:5005 Real Analysis for Economics
- **Hours:** 2 s.h.
- **Description:** Basic metric topology, convex analysis, function spaces, measure theory, and integration.

### ECON:5010 Economic Analysis II
- **Hours:** 3 s.h.
- **Description:** Behavior under uncertainty, macroeconomic models; dynamic programming, asset pricing, saving, consumption.

### ECON:5015 Dynamic Programming
- **Hours:** 2 s.h.
- **Description:** Finite- and infinite-horizon, discrete-time dynamic programming; discrete-time stochastic dynamic programming, including computational methods and some economic applications; continuous-time control theory.

### ECON:5100 Microeconomics I
- **Hours:** 3 s.h.
- **Description:** Consumer choice theory, producer theory, choice under uncertainty, basic game theory. Offered fall semesters.

### ECON:5110 Microeconomics II
- **Hours:** 3 s.h.
- **Description:** General equilibrium and welfare analysis, adverse selection, the principal-agent problem, social choice, mechanism design. Offered spring semesters. Prerequisites: ECON:5100.

### ECON:5115 Fundamentals of Microeconomics
- **Hours:** 3 s.h.
- **Description:** Consumer theory, producer theory, partial equilibrium models, expected and nonexpected utility theory.

### ECON:5125 Game Theory
- **Hours:** 2 s.h.
- **Description:** Noncooperative and cooperative games, games of perfect and imperfect information, matching games.

### ECON:5135 General Equilibrium
- **Hours:** 2 s.h.
- **Description:** Walrasian equilibrium and its properties, welfare economics, general equilibrium and perfect competition, general equilibrium with externalities, general equilibrium under asymmetric information.

### ECON:5145 Information Economics
- **Hours:** 2 s.h.
- **Description:** Markets with asymmetric information, allocation mechanisms, mechanism design.

### ECON:5200 Macroeconomics I
- **Hours:** 3 s.h.
- **Description:** Economic growth, business cycles, money and inflation. Offered fall semesters.

### ECON:5210 Macroeconomics II
- **Hours:** 3 s.h.
- **Description:** Dynamic macroeconomic models; stochastic macroeconomics; time consistency equilibrium business cycle theory. Offered spring semesters. Prerequisites: ECON:5200.

### ECON:5215 Fundamentals of Macroeconomics I
- **Hours:** 2 s.h.
- **Description:** Infinite horizon endowment economies; neoclassical growth models and dynamic general equilibrium.

### ECON:5225 Fundamentals of Macroeconomics II
- **Hours:** 2 s.h.
- **Description:** Real business cycle models; overlapping generations models.

### ECON:5235 Fiscal Policy and Insurance in Macroeconomics
- **Hours:** 2 s.h.
- **Description:** Fiscal policies, optimal taxation, and endogenous growth; uncertainty and incomplete markets, limited commitment, private information.

### ECON:5245 Monetary Economics and Search Theory
- **Hours:** 2 s.h.
- **Description:** Introduction to monetary and financial economics; search theory and applications to labor and money markets.

### ECON:5800 Econometrics
- **Hours:** 3 s.h.
- **Description:** Statistical inference in single and multiple equation stochastic models, models with nonindependent or nonidentically distributed error structure, dynamic models; OLS, GLS, IV, ML estimation; asymptotic distribution theory; exact, asymptotic hypothesis tests. Prerequisites: STAT:4101.

### ECON:5805 Statistics for Economics
- **Hours:** 3 s.h.
- **Description:** Probability theory, transformations and expectations, common families of distributions, multiple random variables, properties of a random sample, point estimation, hypothesis testing.

### ECON:5810 Applied Econometrics
- **Hours:** 3 s.h.
- **Description:** Empirical problems; multiple linear regression, nonlinear regression, maximum likelihood, hazard functions, univariate and multivariate time series, flexible functional forms. Prerequisites: ECON:5800.

### ECON:5815 Theoretical Econometrics I
- **Hours:** 2 s.h.
- **Description:** Statistical inference in single and multiple equation stochastic models, models with nonindependent or nonidentically distributed error structure, dynamic models; OLS, GLS, IV, ML estimation; asymptotic distribution theory; exact, asymptotic hypothesis tests.

### ECON:5825 Theoretical Econometrics II
- **Hours:** 2 s.h.
- **Description:** Continuation of ECON:5815.

### ECON:5855 Applied Econometrics I
- **Hours:** 2 s.h.
- **Description:** Empirical problems; multiple linear regression, nonlinear regression, maximum likelihood, hazard functions, univariate and multivariate time series, flexible functional forms.

### ECON:5865 Applied Econometrics II
- **Hours:** 2 s.h.
- **Description:** Continuation of ECON:5855.

### ECON:6310 Industrial Organization
- **Hours:** 3 s.h.
- **Description:** The firm, monopolistic competition, oligopoly and workable competition; industrial organization, nature of equilibrium under uncertainty. Prerequisites: ECON:5110.

### ECON:6320 Labor Economics
- **Hours:** 3 s.h.
- **Description:** Problems and models, including intertemporal models of labor markets; uncertainty and labor market activity; retirement decisions, economic theories of fertility; economics of discrimination; job search models; economic models of unions; bargaining and strikes, public sector labor markets; determinants of income distribution; emphasis on empirical verification of theory. Prerequisites: ECON:5110 and (ECON:4800 or ECON:5800).

### ECON:6350 Structural Methods in Econometrics
- **Hours:** 2 s.h.
- **Description:** Introduction to structural econometric approaches which can be applied in labor economics, industrial organization, and elsewhere; theoretical frameworks used in this literature; identifying assumptions needed for model estimation and validation techniques; methods used for the estimation of structural models, including Maximum Likelihood, Method of Moments and simulation-based methods.

### ECON:6420 Macroeconomics III
- **Hours:** 3 s.h.
- **Description:** Current research in macroeconomics; development of research topics with emphasis on theoretical and empirical analysis. Prerequisites: ECON:5110 and ECON:5800.

### ECON:6500 International Trade Theory
- **Hours:** 3 s.h.
- **Description:** The theory of international trade, including basic models of international trade; capital and labor mobility and trade; protection of international trade; the political economy of international trade; empirical applications of international trade.

### ECON:6900 Contemporary Topics in Economics
- **Hours:** 3 s.h.
- **Description:** Topics not offered in other courses.
