

# Finance, M.S.

## Combined Programs

### **M.S./J.D.**

The combined Master of Science in finance/Juris Doctor program allows students to pursue two degrees simultaneously, earning both more quickly than they would if the degrees were pursued separately. The Department of Finance collaborates with the College of Law to offer the combined program.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined program. For more information, see the Juris Doctor, J.D. (College of Law) in the Catalog.

### **M.S./M.S. in Business Analytics (Career Subprogram)**

The combined Master of Science in finance/Master of Science in business analytics with a career subprogram allows students to pursue two degrees simultaneously, earning both more quickly than they would if the degrees were pursued separately. The Department of Finance collaborates with the Department of Business Analytics to offer the combined program.

A single admission application is available for the combined degree program. For more information, see the M.S. in business analytics (career) in the Catalog.
