The Master of Business Administration (M.B.A.) program provides students with a foundation for future growth and flexibility in professional management. The program, which is fully accredited by AACSB International—the Association to Advance Collegiate Schools of Business, enables students to build broad-based professional portfolios of analytical skills, knowledge, leadership, and applied experiences. The curriculum is rigorous, yet learning takes place in a collaborative environment that builds teamwork skills and encourages independent problem solving.

Students in Iowa's M.B.A. programs represent a variety of backgrounds, undergraduate majors, and professional experience. The curriculum is designed for college graduates in any field; previous business coursework is not required. However, full-time work experience is required for admission.

The Departments of Accounting, Business Analytics, Economics, Finance, Management and Entrepreneurship, and Marketing all contribute to the Master of Business Administration program through faculty participation and coursework.
